

2022-23 District Goals

Adopted by the BOE on 8/11/22

Teaching and Learning

- District wide implementation of restorative practices as part of accountability interventions associated with developing a positive school culture and climate.
- Increase student centered learning by evaluating and implementing alternative scheduling at the secondary level.
- Create and initiate a district wide expectation to engage each student individually within the holistic content of the curriculum.
- Foster an environment that encourages a growth mindset through feedback, criticism and self reflection for faculty, staff, and administration.

Health, Safety, and Support Services

- Create a district wide Social Emotional Learning (SEL) plan that outlines practice and processes at all grade levels.
- Evaluate services and programming provided through the school counselors and establish district wide expectations.
- Do a critical analysis of our safety plan to identify and address potential liabilities.

Diversity, Equity, Inclusion, and Belonging (DEI)

- Finalize and implement state required DEI Policy.
- Provide professional development focusing on DEI and culturally responsive teaching and learning.
- Provide community education opportunities focusing on DEI and culturally responsive teaching and learning.

Culture, and Community Engagement

- Encourage an environment that seeks out and values constructive feedback, criticism and new ideas.
- Provide community education opportunities including but not limited to those focusing on restorative practices, the new code of conduct, and textbook and library material selection policies.
- Assess progress of the strategic plan and outline next steps.

Fiscal Responsibility and Facilities

- Monitor completion of the current capital project and outline future projects based on building condition survey as well as health and safety needs.
- Pursue strategic use of additional COVID related federal funding.
