

Attention: Changes in New York State immunization requirements

- **Students must receive a booster dose of Tdap to be in compliance with New York State immunization requirements for 6th grade entrance and attendance.**
- A booster dose of Tdap is recommended by ACIP between the ages of 11-12, but can be received as early as 7 years of age.

If you are unable to schedule an appointment with your healthcare provider, Madison County Department of Health holds immunization clinics. For any additional inquiries, you may contact your family health care provider. You must forward confirmation of your child's immunization from your family health care provider to the Health Office at school by mail or fax (315-824-6334).

Please call with any questions.

Sincerely,

Elizabeth Marcellus, R.N.
